

The Future Is Digital – And Inclusive

Join us for a playful and interactive working session on digital inclusion in healthcare and public services.

How can researchers actively shape a future where digital healthcare is accessible to all? What is our responsibility – and what opportunities can we seize?

In this session, we'll dive into these urgent questions together. Through discussion and reflection, we'll explore how APH researchers can play a pivotal role in creating digitally inclusive systems that leave no one behind.

Program

13:00 *Serious game MediZeker - limited spots available*

14:30 Inspiration session - plenary session - work session

16:30 Plenary closing and drinks afterwards

What to expect?

- Interactive discussions in English/Dutch (based on preference) on what you can do to make future digital healthcare inclusive
- Opportunities to connect and collaborate
- Bring your own article about digital inclusion to the reading table

Get inspired by the Smart Future Journal (slimme toekomstkrant) and Chance Cards (kanskaartjes), join the reading table and conclude the day with a drink on the rooftop terrace.

Sign up before September 26th - link in e-mail
