## Call for collaboration grants within the APH program Global Health 2025

### APH Global Health Collaboration Grant 2025

#### Goal

The APH Global Health Collaboration Grant aims to stimulate new collaborations between APH researchers by connecting APH Global Health researchers with at least one other research program outside APH Global Health research program.

Possible topics for collaboration are:

- Pilot experiments and studies to facilitate joint grant applications
- Increase quality of research through joint knowledge and availability of resources within APH Global Health
- Development or innovative application of research methodologies and techniques

This collaboration may result in a new:

- Collaborative network
- Collaborative research line
- External grant proposal

#### What can be applied for:

A fixed budget of EUR 12.000.

#### Target groups:

- Postdocs
- Senior researchers

#### Conditions

- the proposal concerns a new collaboration between researchers of the Global Health program and at least one other program of APH.

*\*i.e. no joint publications in the last 5 years*

- A researcher may be involved in only one application
- The project needs to be completed before December 15, 2025
- The applicants need to show how their project strengthens new collaboration within the APH Global Health research program

Important dates:

- Deadline project proposals: 19 May 2025
- Outcome: 16 June 2025

Projects will be evaluated based on the following criteria:

- Quality and feasibility of the work plan (40%)
- How this grant is crucial for the new collaboration (20%)
- Contribution of each applicant and presence of the right expertise needed for the project (40%)
- All criteria should be clearly addressed.

Application procedure:

Send the completed application form (as PDF) before May 19, 2025 to:

[aph.globalhealth@amsterdamumc.nl](mailto:aph.globalhealth@amsterdamumc.nl).

Requirements after obtaining the APH Global Health Collaboration Grant:

- Provide a scientific final report describing how this grant has stimulated a new collaboration and the results of this collaboration. Also suggestions to improve the grant are welcome.
- Provide an overview of expenses of the project within six months after the end date.
- Refer to the APH Global Health Collaboration Grant in the acknowledgements of any publications resulting from the research performed funded by this grant by adding "This research was supported by a Collaboration Grant of the Global Health research program within the Amsterdam Public Health research institute" to the acknowledgements.
- Refer to APH Global Health research program when communicating about this grant, e.g. in the (social-) media, or when presenting the data originated from this grant as posters/ oral presentations/ pitches.
