

AmsterdamUMC/VU JOINS THE 2022

INTERNATIONAL LABORATORY FREEZER CHALLENGE

freezer
challenge

www.freezerchallenge.org

What

Did you know that... setting ultra-low temp freezers to -70°C can reduce energy consumption by 30%!

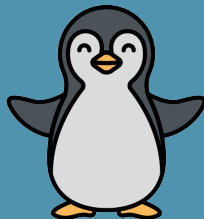

It is a challenge to promote cold storage best practices.

When

1 March - 1 July 2022

Who

Every department and laboratory that has cold storage.

The challenge:

• Temperature tuning: from -80°C to -70°C

• Cleaning up fridges & freezers

• Freezer and sample inventories

Register to join the Amsterdam Freezer Challenge by sending an email to:
