

Horizon Europe

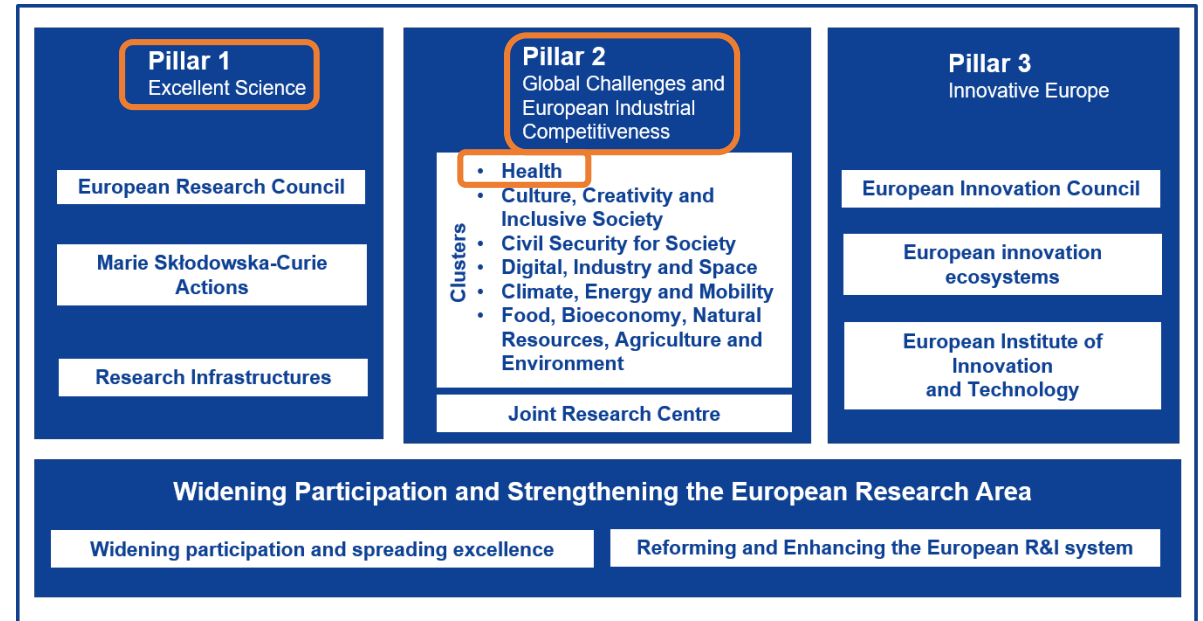

Fund your research idea with a European consortium grant

Amsterdam UMC Research Grant Support Office
February 2021

Horizon Europe 2021-2027

- Successor of the Horizon 2020 programme
- The EC proposal for Horizon Europe is a €95 billion R&I programme
- Goal: strengthen the EU's scientific and technological bases, boost its innovation capacity and deliver on Europeans' priorities.
- New: Missions
 - Missions address important societal challenges
 - The current five missions are:
 1. Adaptation to Climate Change including Societal Transformation
 2. Cancer
 3. Healthy Oceans, Seas, Coastal and Inland Waters
 4. Climate-Neutral and Smart Cities
 5. Soil Health and Food

Strategic planning of Horizon Europe.

Why applying to Horizon Europe?

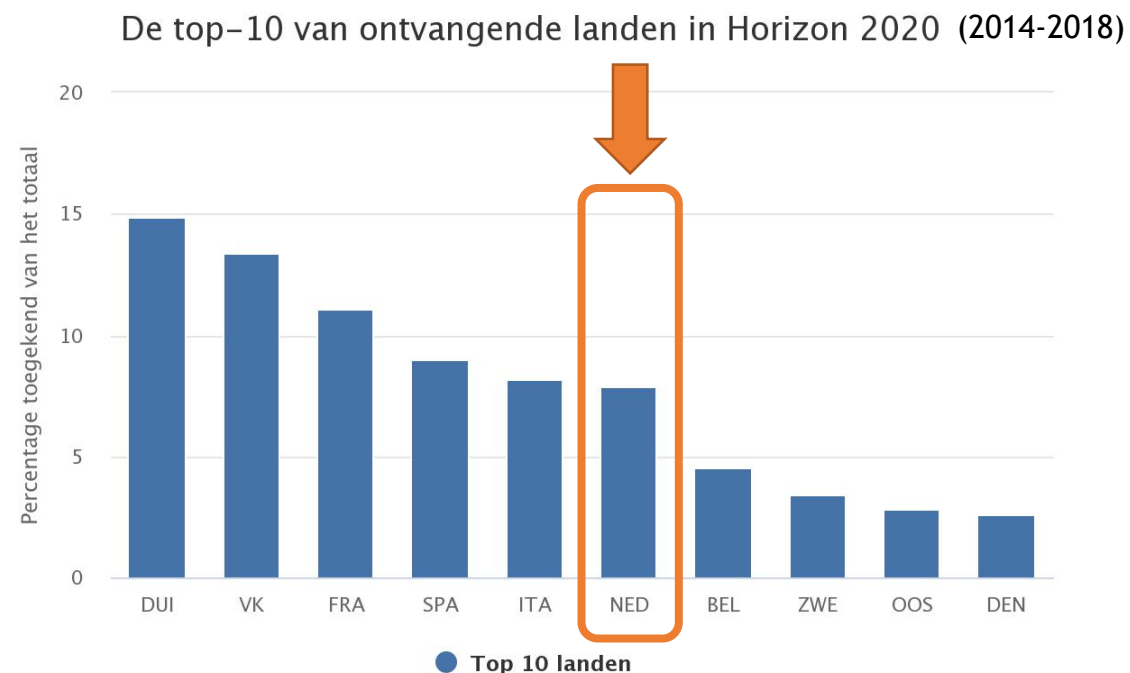

- Participation in Horizon Europe provides access to outstanding **research networks, infrastructure and new markets**;
- Facilitates **collaboration** among an international consortium incl. non-academic parties;
- International **exposure** of your research;
- Broad **application** of your results/products/services/policy (not limited to NL);
- Funding rate of 100% (Research and Innovation Actions);
- Provides funding for **different stages** of development, from fundamental to early stages of clinical research.

Writing a Horizon Europe application might be challenging at first, but can definitely contribute to long-term collaboration, networks and provide a basis to future projects!

Dutch research performs at top level worldwide

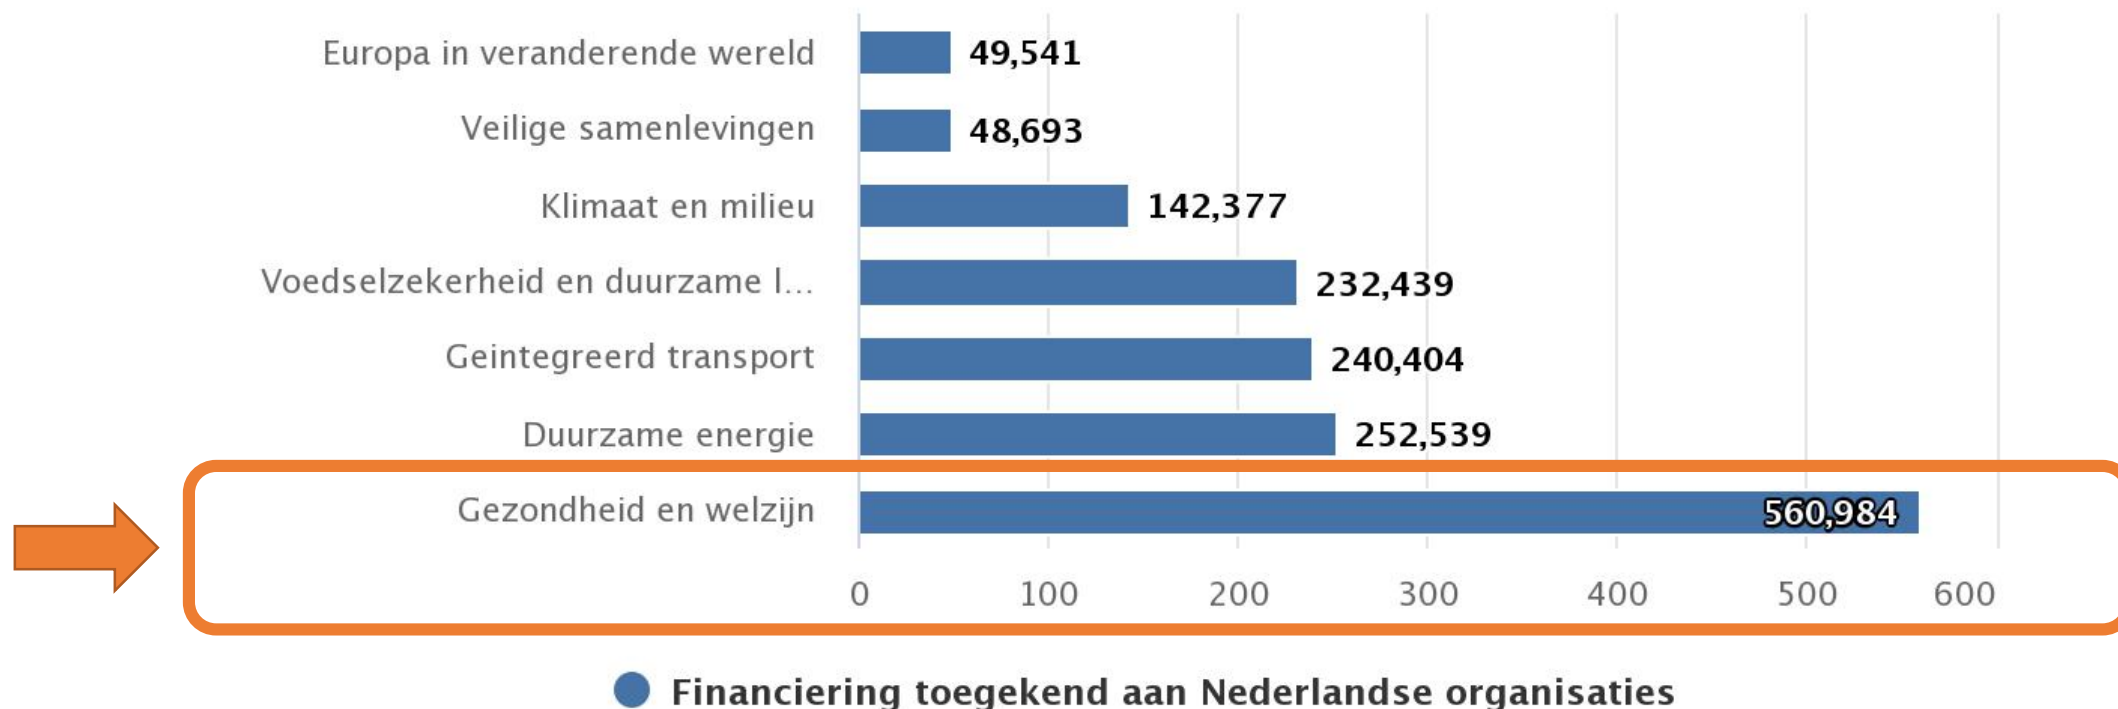

- European funding makes up an increasing part of the total public R&D.
- In H2020, The Netherlands received a share 1.5x bigger as the Dutch investment.
- Dutch researchers are **very successful** in H2020: only 5 countries receive more funding.

The Dutch H2020 budget was mostly awarded to Health topics

H2020 budget toegekend aan Nederlandse organisaties voor societal challenges (in miljoen €)

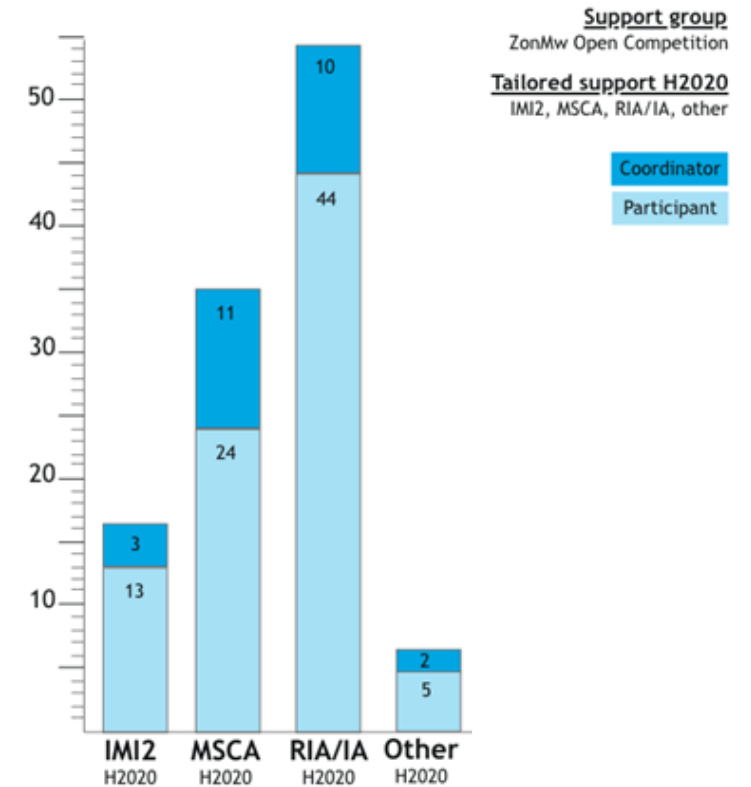

Amsterdam UMC Grant Support

- The Amsterdam UMC Research Grant Support Office offers a portfolio of services to reach high-quality proposals.
- The team is well experienced with prestigious personal grant applications and EU/NL research collaboration projects.
- **A personalized and tailor-made support trajectory for European consortium grants**

Awarded Amsterdam UMC

Consortium grants # Participations 2014-2019

Amsterdam UMC Consortium grants are supported centrally with a tailor-made approach. EU grants benefit from the expertise of the grant advisors working closely with Research Support. Project managers are involved during the implementation phase.

What support do we offer?

Tailor-made support trajectory European consortium grants:

Feasibility check	Incl. call and topic interpretation, determine fit with the call
Templates and toolbox	Annotated template for proposal, GANTT chart, WP and partner input forms are available to get you started
Support in organization of proposal	We think along with the strategies of WPs, project planning,...
Consortium forming	Act as 'broker' to complete your consortium and/or attend consortium meeting(s)
(Re)write specific sections of the proposal	E.g. management structure, measures to maximize impact
Critical review of full proposal	Providing feedback on the implementation and impact aspects of EU grant proposals
Entry point to contacts	At IXA, legal, project/financial controllers (AMR) and RVO (Dutch National Contact Point)

Grant support - how we can help
