Stade de Colombes 14, 1098 VT Amsterdam

Amsterdam, 18 december 2023

**To:**

The chairs in the faculties of mathematics, physics and computer science, dentistry and medicine at the UvA and the faculties of beta sciences, dentistry and medicine at the VU

**Subject:**

Nominations for Andreas Bonn medals

Dear colleague,

The board of the Society for the Promotion of Nature, Medicine and Surgery intends to issue three Andreas Bonn medals at the annual meeting in April 2024:

- A medal in the field of mathematics, physics, chemistry and computer science
- A medal in the field of medicine, surgery and dentistry
- A medal in the field of life sciences

In combination with the medal, € 1000 is awarded.

The Andreas Bonn Medal is intended to honor young researchers at Amsterdam Universities, who have defended their dissertation before their 35th anniversary, of very good quality. The medal is granted on the basis of the quality of scientific research carried out for a promotion at the University of Amsterdam or the VU University Amsterdam. This work must be published in the international professional literature and/or in the form of a dissertation. The promotion must have taken place in the years 2019 to 2023.

On behalf of the board of the Society, I would like to give you the opportunity to nominate a suitable candidate for the medal. The nomination must be accompanied by a justification and a pdf of the dissertation. You can submit your nomination until 7 February 2024 to the secretariat of the Society via [gnggh@uva.nl](mailto:gnggh@uva.nl). For further information about the society and former medal winners, see [gnggh.nl](http://gnggh.nl).

The laureates are expected to give a short lecture about their work of approximately 20 minutes during the annual meeting on April a.s. and their promoters that they will express a Laudatio of approximately 5 minutes.

Sincerely,

Prof. dr. Eric Reits  
Secretary
